Martin Dobis, CTO,
CleanTech startup, Slovakia

**Land your next
€200-500k
dream job!**

Why Top CTOs Choose CareerCrackers

Because job boards don't work. We help you unlock hidden roles, connect directly with decision-makers, and become the CTO everyone wants to hire — without wasting time on outdated tactics.

1. Unlock Hidden Job Opportunities

80% of executive roles are never posted online. Learn how to identify them, build insider relationships, and use targeted outreach to land opportunities — without relying on job boards.

2. Never Waste Time on Job Boards Again

Stop applying and getting ghosted. Strategic networking and personal branding put you in front of the right people — no more uploading endless CVs.

3. Connect with Decision-Makers

Forget HR filters and automated rejections. We show you how to start direct conversations with CEOs, CTOs, and board-level leaders who make the hiring calls.

4. Get Noticed by Executive Recruiters

With the right LinkedIn positioning, recruiters and hiring managers start coming to you with roles that match your ambitions.

5. Activate Your Network

You already know people who can open doors. We help you reconnect with tailored messaging that sparks referrals and real opportunities.

6. Stand Out in a Crowded Market

Thousands of tech leaders are looking. We help you rise above with expert positioning, personal branding, and messaging that sticks.

7. Get Unbiased, Candid Feedback

No fluff. Just clear, direct advice from Michal Juhas, who's helped over 100 senior tech professionals navigate their next move with clarity and confidence.

8. Save Time and Money on Outreach

Our team uses premium databases (worth thousands annually) to research your target market. You get a curated shortlist and custom outreach scripts from our Head of Delivery — without lifting a finger.
